

ProVision

Camera Coupler

Turn your Provison into a Camera Scope

Turn any Provison® Inspection scope into a camera scope! Perfect for digital cameras! You can hook up video cameras, digital or film cameras with the new Provison Camera coupler.

Great for warranty claims, diagnostic, evidence recording and much more. Features black anodized finish with precision machined 37mm threads and a recessed snug fit "O" ring for a more secure fit. The Provison Camera Coupler will work on all cameras with a threaded filter base but, you might need to purchase the "step-up," or "step-down" rings that are easily available at any camera store or department.
